

HEALTHCARE APPLICATION

DuPont™ Corian® INTERIOR WALL SURFACING

Corian® has been 'hard seamed' into a continuous surface so there are no difficult to clean seam areas. The 1/4" thick Corian® sheets are placed on top of standard metal baseboard transition strips. A line of DuPont silicone seals the Corian® to the transition strip.

Festival

Scottish Rite Hospital

Architect: Jeff Haven-VP Architecture, HKS Dallas
Designer: Becky Leach, Senior Healthcare Designer, HKS Dallas
General Contractor: The Beck Group
Fabricator: DuPre Industries

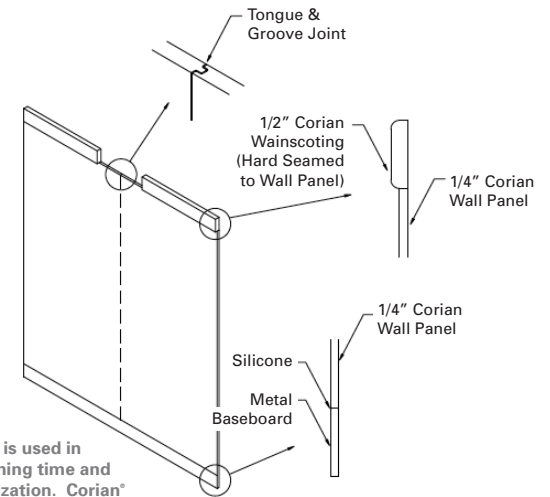

Scottish Rite is applying Corian® Festival to walls to reduce repairs and cleaning time. Applications include wainscoting in operating rooms and hallways, public and patient room vanities, window sills, patient bed head walls, nurses station desktops and walls, and food service facilities.

Margaret Taylor, Director of Facilities, Scottish Rite Hospitals for Children, proposed "We have significantly improved the appearance of the hospital and reduced cleaning and maintenance costs by using Corian®. Areas with Corian® look better than those recently painted. It seems like walls without Corian® show every impact with gurneys, carts and wheel chairs while the Corian® looks almost new."

Scottish Rite operates 17 Hospitals and 38 Clinics in central Texas.

Wainscoting of Corian® Festival is used in operating rooms to reduce cleaning time and increase potential OR room utilization. Corian® is non-porous and will not support the growth of mold or mildew when properly cleaned.

The beauty of Corian® in healthcare.

Easy-to-clean interiors don't have to be cold and sterile. DuPont™ Corian® solid surfaces create warm, inviting environments that meet the tough demands of healthcare.

Discover the many great healthcare applications for Corian®:

- Wall cladding, cabinets, vertical components
- Windowsills and wainscoting
- Way-finding
- Cafeteria counters and tables
- Patient and public restroom vanities
- Patient bath and shower surrounds
- Wall cladding
- Tables, laboratory sinks and work surfaces
- Slabs and cladding for mortuaries
- Pharmacy counters and staining benches for histology labs
- Operating room walls and surfaces

Corian® is...

NONPOROUS

Will not support the growth of mold, mildew or microorganisms

EASY TO CLEAN

No grout or seam gaps; maintenance costs and time are greatly reduced

STAIN-RESISTANT

Stains can't permeate and are easily removed

DURABLE

Tough and long-lasting; stands up to heavy use and abuse; problems with wall damage are virtually eliminated

AIR QUALITY FRIENDLY

Maintains good indoor air quality—no off-gassing, no VOCs

EASILY INSTALLED

Can be installed or retrofitted over existing, sound tile—saving downtime

RENEWABLE

Marks and scratches can be removed easily to restore it to its original condition

CODE COMPLIANT

Class 1 fire rated and NSF/ANSI 51 food contact certified.

Can be molded and formed with no sharp edges or corners for ADA compliance

WARM AND INVITING TO THE TOUCH

The practical surface material that creates a unique, beautiful statement

STYLISH

Over 100 colors—more than any other solid surface—plus custom color options

...the perfect surface
for healthcare.
